VEDESH EMANDI

IAM Analyst

Andhra Pradesh, India | +91 97034 33344 | vedeshemandi@gmail.com | LinkedIn | Portfolio | GitHub

Professional Summary

IAM Analyst with experience in Saviynt EIC support and implementation under L2 guidance. Support user lifecycle management and access requests, and contribute to configuring email templates, connections, and approval workflows. Work with senior team members and application teams to troubleshoot issues, test changes, and maintain reliable IAM operations.

Professional Experience

NextGen Identity
IAM Analyst | Feb 2025 – Present

- Configure email templates, connection settings, **JML and approval workflows** in Saviynt EIC for GSIS under L2 guidance.
- Assist the L2 team with testing and troubleshooting GSIS configurations.
- On Petronas, started in IAM support and later assisted the L2 team with implementation testing and troubleshooting of **Active Directory (LDAP) connections** and user workflows.
- Maintain RBAC roles and business rules under senior guidance.
- Process around **50 access requests each week**, including user provisioning, deprovisioning, access modifications, password resets, and Active Directory group management while meeting SLA commitments.
- Work with SAP, Active Directory (LDAP), and REST-based connectors in **Saviynt EIC**; support user imports, identity reconciliation, and access requests.
- Execute and monitor scheduled jobs such as user imports and provisioning jobs, investigating failures and resolving issues through log analysis and troubleshooting.
- Collaborate with application owners and cross-functional teams to resolve IAM incidents and fulfil access requests within agreed SLA timelines.
- Maintain technical documentation and process guides for IAM operations and team onboarding.
- Participate in client discussions, testing activities, and change validation to ensure IAM configurations align with business requirements.
- Help reduce ticket backlog and meet SLAs by streamlining requests and resolving recurring access issues.

Technical Skills

Identity and Access Management	Saviynt EIC, Identity Governance & Administration (IGA), Identity Lifecycle Management (Joiner-Mover-Leaver), User Provisioning & Deprovisioning, Access Request Management, Segregation of Duties (SoD), Identity Reconciliation
Directories & Authentication	Active Directory (LDAP), User Attribute Mapping, AD Group Management
Programming & Databases	Java, Python, JavaScript, SQL, MySQL
Tools & Technologies	REST APIs, JSON (foundational knowledge), Postman, Git, AWS (fundamentals), DB connectors (basic familiarity)
Professional Skills	Incident Resolution, Troubleshooting, Documentation, Cross-functional Collaboration, Client Communication, Problem Solving

Projects

Voice Assistant using Python

- Developed a desktop voice assistant using Python with speech recognition and text-to-speech libraries.
- Integrated external APIs to perform tasks such as web searches, weather updates, and application control through voice commands.
- Focused on improving user interaction by automating routine tasks using natural language input.

Internships

Symbiosys Technologies
UI/UX & Web Development Intern

- Designed responsive web interfaces using Figma and collaborated on front-end implementation with ReactJS.
- Worked with the development team to improve user experience and translate design concepts into functional web pages.

1Stop DevClub (IIT Delhi)
Android Development Intern

- Developed Android applications using Kotlin and REST APIs as part of internship projects.
- Built news and weather applications while improving application stability through testing and debugging.

Certifications

- Saviynt IGA Professional Certification
- Saviynt AAG Professional Certificate
- Accenture Data Analytics & Visualization Job Simulation (Forage)
- Google Data Analytics Professional Certificate (Coursera)

Education

B.Tech in Computer Science Engineering
GITAM University, Visakhapatnam

CGPA: 8.4 | 2021 – 2025

Intermediate (+2)
Sri Viswa Junior College, Visakhapatnam

Percentage: 92% | 2021
